Nikhil Kumar

SDE – Full Stack Developer

Kasganj, Uttar Pradesh, India | +91 7668099879 | unikhil723@gmail.com

LinkedIn | GitHub | LeetCode | GeeksForGeeks | CodeChef

Summary

Computer Science undergraduate and software development enthusiast with hands-on experience in full-stack development, REST APIs, database integration, and AI-assisted applications.

Education

Chandigarh University — Punjab, India

B.Tech in Computer Science and Engineering — *Expected 2028*

- CGPA: 7.3

Saraswati Vidya Mandir — Kasganj, Uttar Pradesh

Class XII — *2022 – 2023*

Saraswati Vidya Mandir — Kasganj, Uttar Pradesh

Class X — *2016 – 2017*

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL

Frameworks & APIs: Spring Boot, REST APIs, MERN Stack

Core CS: DSA, DBMS, Operating Systems, Computer Networks

Other: API Integration, System Design, Kafka, Redis

Experience

Corizo Edutech Pvt. Ltd. — Jun 2026 – Present

AI/ML & DSA Intern

- Work on AI/ML implementation and algorithm development using Python, data structures, and structured problem-solving techniques, while analyzing algorithms and optimizing runtime through efficient data processing.

Projects

MILO – Lost & Found Platform — React.js, Firebase

- Developed a community-based application for reporting, browsing, and discovering lost or found items.
- Implemented Firebase authentication, image uploads, real-time database updates, search, filtering, and listings.

CodeBridge – DSA Browser Extension — JavaScript, AI APIs

- Created an AI-assisted browser extension providing hints, explanations, and step-by-step DSA problem guidance.
- Designed support for LeetCode and HackerRank and integrated AI API functionality.

Speakly – AI-Powered Language Learning Platform — MERN Stack

- Designed an AI-powered learning platform connecting structured learning with real-world conversation and speaking practice.
- Planned personalized learning paths for students and teachers to make language learning engaging and data-driven.

PulseOS – Desktop Diagnostics & Optimization — Java, Maven

- Developing a desktop system-management application focused on hardware telemetry, device health, and system monitoring.
- Exploring storage analysis to identify large files, unnecessary storage usage, and optimization opportunities.

Certifications & Coursework

AI/ML Certification – GUVI / HCL

Full Stack Web Development – Coursera

SQL – HackerRank and Coursera
